Safety and Security

- **As with any urban area, please keep your safety in mind. We do not recommend walking outside when it is dark. If you are parked on the street or a shuttle will be picking you up, please feel free to ask for an escort.**
- RMHC conducts a formal criminal history background check on all individuals 18 and older applying for temporary lodging.
- The safety of all RMHC families is very important to us. Please speak with the Director of House Operations if anyone planning to stay with your family has a restraining order or “no contact” order.
- The House reserves the right to deny temporary housing to any potential resident or guest with a criminal felony conviction that may threaten the health, safety, welfare, and ability of other individuals to peacefully enjoy the House (e.g., violent crimes, domestic violence, child abuse, sex offense, illegal drug activity, burglary and/or theft).
- RMHC also will not admit any individual who provides false, incomplete, or misleading responses during the criminal history background check.
- RMHC also reserves the right to expel a guest for any inappropriate, irresponsible, or criminal behavior that takes place while temporarily residing at the House.
- All exterior doors in the House are secured. If you are entering the House and someone not in your family is behind you, please do not use your swipe card. Ring the doorbell and alert the Guest Services Manager on duty that you are staying at the House and that there is another person, not with you, also trying to access the House. Do not admit anyone to the House unless they are with your family.
- No personal appliances such as toasters, hotplates, heaters, etc. may be used in your room.
- Candles, incense and open flames are not allowed in the House.

- Please be aware that security cameras are located in all communal areas for your protection. The security tapes are reviewed on a regular basis.
- Please make sure that children treat House toys and furniture appropriately. Roughhousing and destructive behavior is disruptive to other residents and is unfair to children who will use the House in the future.

Food, Beverage, Kitchens

- Each family is assigned refrigerator and pantry space by room number. Although we provide this space for you, it is limited. Freezer space is especially limited so please be considerate of other families who need to use the same space. Please make sure you only use the space assigned to your room. If you aren't sure where your space is located, please ask at the reception desk.
- During your House tour the Guest Services Manager will show you our "free food" refrigerator and pantries. Please note that all other refrigerator and pantry food has been purchased by our families and is their property.
- If your child is in the feeding program at Kennedy Krieger and you need a "quiet" dining option, please see the Guest Services Manager on duty for available options.
- Guests should clean up after cooking, eating, and drinking. This includes cleaning the counters and cooking areas, loading the dishwasher and starting it if it is full (or emptying it if the dishes are clean), cleaning the tables, etc. Please do not leave dirty dishes on the stove tops, countertops or in the sink.
- Guests must stay in the kitchen when the oven or stove top is in use or when cooking.
- Unattended children are not allowed in the kitchen area.

Health Care, Hygiene and Medical Equipment

- Latex balloons cannot be used within the House. This is necessary because many patients, visitors and staff are sensitive to latex. This sensitivity can have severe consequences to the health of individuals in our House.
- For safety purposes, breast milk and medications cannot be kept in the kitchen refrigerators or freezers. If you need storage for breast milk or medications, please notify the team member on duty at the reception desk. They will provide a small in-room refrigerator for storage of those items.
- Needle boxes must be used for the disposal of hypodermic needles. You must provide your own needle box. At check-out please dispose of the needle box off-site, not in the trash.
- RMHC is not a medical facility. We do not supply or modify rooms to accommodate specialized air flow, suction machines, hospital/medical beds, or equipment that requires uninterrupted electrical power. This does not apply to self-sustaining, durable medical equipment such as portable oxygen tanks and infusion pumps. However, families are responsible for battery backup for their equipment.
- Families are solely responsible for treatment as well as devices and medications. Furthermore, RMHC does not provide medical treatment, assistance or medications of any kind.
- Families are responsible for arranging the pick-up and return of all medical equipment.
- Pin care, diaper changing, tube feeding and other personal care should only be done in the privacy of your guest room.
- RMHC staff does not provide counseling, therapy or social work intervention. Ideally, RMHC families have access to such services from their referring hospital, in the Baltimore area, or in their hometown community.

Room Care, Use and Length of Stay

- Your guest room was assigned to your family based on the number of people authorized to stay in the room and rooms currently available. At no time can the room occupancy exceed the local fire code.
- If you wish to have another person authorized to stay in your room, your social worker/case worker must contact the Manager on Duty with the name of the person, relationship to the patient, DOB and address. Only

immediate relatives and those involved in the day-to-day care of the patient can stay at the House. In addition, criminal background checks are run on all persons 18 and older. No one with a criminal conviction that may threaten the health, safety, welfare, and ability of other individuals to peacefully enjoy the House (e.g., violent crimes, domestic violence, child abuse, sex offenders, illegal drug activity, burglary and/or theft) will be allowed in the House. **Please note that we require 48 hours advance notice in order to authorize other people to stay in your room.**

In order to help you keep the room clean during your stay, we have provided a bucket of cleaning supplies which can be found under your bathroom sink. If your room does not have cleaning supplies, or you need more supplies, please notify the team member on duty at the reception desk and they will provide them for you.
- In addition to keeping your guest room tidy, please help us keep the common areas neat and clean by picking up after yourself. This will ensure that future families will have a beautiful place to come home to.
- During your stay you please take your own trash out to the dumpster. The Guest Services Manager on duty can direct you to the dumpster.
- A tack board has been provided in each guest room so you can “decorate” your room. To help prevent permanent damage to the room, please do not mount, hang or adhere any item to House furniture or walls.
- Here at RMHC we book families for a maximum stay of 90 consecutive days.
- Extensions beyond the original check-out date must be requested by your social worker or doctor’s office. This request must be made as soon as possible or we may be unable to accommodate to consider extending your stay. A request for an extension does not guarantee that we will be able to extend your family. Extensions will be based on several factors which include, but are not limited to who is on the wait list (higher priority families, families who live farther from the House, updates from your social worker, etc.), amount of additional time needed, etc.
- If items of value are left or abandoned, such as clothing, the House will attempt to identify and notify the owner. After 30 days, the House reserves the right to dispose of those items.

Computers

- Parents are responsible for what their children view and do on the computer. Please supervise your child’s computer use. Viewing of pornographic or inappropriate material on RMHC computers is strictly forbidden. We have firewalls in place to protect everyone. These firewalls may mean that you will be unable to download items to our House computers.
- The second floor Business center is for use by adults in the House. A printer is available in the Business Center. We ask that in order to conserve printer ink and paper, please only print essential items. Computers for children to use are also available in the second floor, near the elevator.

Privacy and Social Media

- In order to protect the privacy of guests, photos taken at the House which show other families may not be used in social media such as blogs, Twitter, or Facebook without the written permission of the family shown in the photo. Also, any family member wearing an orange wristband has requested that no photos be taken of them.
